Prueba01

1. **PreguntaSinSentido**

Dado W, dado $\boldsymbol{z}_n +_n (\boldsymbol{a})$, dado $\left(\left[\,\overline{\|A\|}\,\right]^{-1}\right)$ y $\mathsf{A} + \vec{b}$ resulta que $\mu_{\boldsymbol{x}}^2$ y que

$$\mathbf{A} = \begin{bmatrix} 1 & 3 \\ 5 & 7 \end{bmatrix}.$$

Si $[f \circ g] : \mathbb{R} \longrightarrow \mathbb{R}^n$, el determinante de $\left(\mathbf{I}_{\tau_1' \cdots \tau_p'}\right)$ multiplicado por $\mathrm{row}_i\,(\mathbf{A}^\intercal)$

$ x \longmapsto \boldsymbol{x}$

es:

(a) $\left(\widehat{\mathbf{X}}^\intercal \widehat{\mathbf{X}}\right)^{-1}$

(b) $\left((\mathbf{A}^\intercal)^{-1}\right)$

(c) $\mathscr{L}(\mathsf{Z})$

(d) $\vec{x}_{/z}$

(e) $\mathrm{cof}_{ij}\,(\mathbf{A})$

(f) $\left|\,{}^{i}\!{}^\gamma \mathbf{A}^{\check{r}_j}\,\right|$

(g) $\underset{[(\lambda)\boldsymbol{i}+\boldsymbol{j}]}{\boldsymbol{\tau}}\,\mathbf{A}$

(h) $\mathbf{A}_{\tau_1^* \cdots \tau_4^*}$ ✓

(i) $\left({}_{\tau_k \cdots \tau_j}\mathbf{A}_{\tau_j \cdots \tau_k}\right)$ ✓

(j) $\left({}_{i|}(\mathbf{A}^\intercal)_{|j}\right)$

(k) $\left[{}_{i|}\mathbf{A}\right]^\intercal$

(l) $esp\left(\underset{[(a)\boldsymbol{j}+\boldsymbol{k}]}{\boldsymbol{\tau}}\right)$

(m) $\left\langle f(x), g(x) \right\rangle$

(n) $(\boldsymbol{a} + \boldsymbol{b}) \odot \boldsymbol{c}$

(o) $(\mathbf{A}^\intercal)\boldsymbol{b}$

(p) $\mathbf{A}_{esp(\tau_2^{-1})}$

(q) $\boldsymbol{\tau}_k^{-1}$

(r) $\tau_2^{-1}\mathbf{A}$

(s) $\boldsymbol{\tau}_1 \cdots \boldsymbol{\tau}_3$

(t) $\underset{[(a)\boldsymbol{j}+\boldsymbol{k}]}{\boldsymbol{\tau}}$

(u) $_{\tau_j \cdots \tau_k}\left(\mathbf{A} + \mathbf{B}\right)$

(v) $\left(\mathsf{B}_{\tau_j \cdots \tau_k}\right)$

(w) $\underset{[(5)\boldsymbol{i}+\boldsymbol{j}][(-7)\boldsymbol{j}]}{\boldsymbol{\tau}}\,\mathbf{A}$

(x) $\underset{[(-5)\boldsymbol{i}+\boldsymbol{j}]}{\boldsymbol{\tau}}\;\mathbf{I}\;\underset{[(-7)\boldsymbol{j}]}{\boldsymbol{\tau}}$

(y) $\mathbf{A}_{\underset{[\mathfrak{S}]}{\boldsymbol{\tau}}}$

(z) $\left(\mathbf{A}_{[i \rightleftharpoons j]}^{\boldsymbol{\tau}} \right)$
